EDUCATION

Bachelor of Science in Software Engineering, Multimedia University of Kenya

Sep 2021 - Present (Nov 2025)

Coursework: Data Structures and Algorithms, Web Development, Advanced Artificial Intelligence, Natural Language Processing, Object Oriented Programming

SKILLS

Git

HTML/ CSS

JavaScript

Microsoft Azure

Natural Language Processing

Predictive Modeling

Python

React

LANGUAGES

English - Native speaker

Swahili - C1

French - A2

CERTIFICATIONS

CIPIT Data Protection Course | Strathmore University | Oct 2024

Azure AI Fundamentals | Microsoft Learn | Jun 2024

SUMMARY

Detail-oriented Software Engineering student with practical experience in web development, machine learning, and data visualization. Proficient in Python, JavaScript, and React with demonstrated ability to build user-centric applications.

PROFESSIONAL EXPERIENCE

Machine Learning Intern

Nov 2024 - Dec 2024

Future Interns, India (Remote)

Built a regression model to predict house prices with 89% accuracy. Implemented an NLP model to classify movie reviews using Python. Performed data preprocessing, feature engineering, and model evaluation.

Software Development Attache

May 2024 - Jul 2024

Eclectics International Limited, Nairobi, Kenya

Developed an employee onboarding platform using React and modern JavaScript frameworks.

Implemented responsive UI components and integrated with backend services.

Utilized version control (Git) for collaborative development

ICT Intern

Jul 2023 - Aug 2023

Kenya Red Cross Society, Nairobi, Kenya

Created interactive PowerBI dashboards for multiple departments.

Transformed raw data into meaningful visualizations for data-driven decision making.

Collaborated with stakeholders to understand reporting requirements

VOLUNTEER EXPERIENCE

- Community Growth Manager volunteer at Geek-ssters | Jun 2023 - Present
- Social Media Manager for AWS Student Community Day Kenya | Jul 2024 - Dec 2024
- Secretary for IEEE MMU Computer Society | Sep 2024 - May 2025

PERSONAL PROJECTS

Employee Onboarding Portal

Built an interactive onboarding application using React, JavaScript, and CSS.

Implemented responsive design for cross-device compatibility.

Created user authentication and form validation features

HealthMate – AI-Powered Personal Health Tracker

Built a React web app to track health metrics, medications, and appointments.

Integrated AI for anomaly detection and image-based health data recognition.

Implemented secure data storage and reminders using Firebase and FastAPI.
